ANSHU

Senior Data Engineer

SUMMARY

Data Engineer with 3+ years of experience in designing and optimizing large-scale data pipelines using Azure Data Factory, Databricks, PySpark, Spark SQL, Delta Lake, and ADLS Gen2. Strong expertise in Medallion Architecture, performance tuning, data quality validation, and ETL/ELT pipelines. Proven record of improving pipeline performance by up to 40% and delivering reliable analytics solutions in Azure cloud environments.

EXPERIENCE

Senior Data Engineer

MAQ Software

10/2025

- Collaborated with business stakeholders to translate complex requirements into scalable, cloud-native data engineering solutions.
- Designed, developed, and optimized data pipelines using best practices and reusable design patterns.
- Managed multiple parallel data engineering tasks, ensuring high code quality, efficiency, and reliable data processing.

Data Engineer 2

MAQ Software

02/2024 - 09/2025

- Optimized large-scale Azure Databricks pipelines using Medallion Architecture, Delta Lake, partitioning, and Spark performance tuning, reducing runtime by 30%
- Led a cross-functional team of 5 to deliver a complex data project with 100% on-time delivery, translating requirements into robust backend design
- Drove CIP initiatives, automating workflows, enhancing performance to reduce runtime & manual effort by 30%

Data Engineer 1 | Associate Data Engineer

MAQ Software

04/2022 - 01/2024

- Designed ETL pipelines and BI solutions using SQL, PySpark, ADF, ADLS, and Databricks, ensuring timely, accurate, and reliable data delivery
- Developed and validated backend logic and data models for multiple client solutions, ensuring data accuracy and integrity
- Independently delivered critical project tasks, earning client trust through consistent reliability and ownership

KEY ACHIEVEMENTS

★ SPOT Award – Data Solution Excellence

Recognized for delivering optimized Azure data pipelines and high-performance BI reporting solutions.

NCC Volunteer

Demonstrated leadership and team management skills as an NCC Volunteer

SKILLS

Programming & Scripting:
SQL (Advanced), PySpark, Python

Cloud & Data Platforms:
Azure Data Factory (ADF), Databricks, Data Lake Storage Gen2 (ADLS)

Data Warehousing & Modeling:
Medallion Architecture, Delta Lake, Star Schema, ETL/ELT, Performance Tuning

Reporting & DevOps:
Azure DevOps, CI/CD, Power BI, DAX, Fabric, SSMS

PROJECTS

Azure Analytics Solution: Ingestion to Insights

- Designed, processed and implemented a data pipeline using Azure Data Factory and PySpark to ingest, transform, and store budget data from multiple sources into ADLS at production scale.
- Utilized Delta Lake for versioning and achieved a 40% improvement in job runtime.
- Enabled Power BI reporting for 20+ business users

AI-Powered Test Case Generator

- Built an AI-powered notebook that automatically generates functional test cases from user stories, reducing manual testing effort by 60%.

EDUCATION

B.E. (CSE) **CGPA: 9.93**

Chitkara University

08/2019 - 05/2023

Class XII **Percent: 93%**

SSJGS

04/2018 - 03/2019

CERTIFICATIONS

Microsoft Certified: DP-600, DP-700
